Executive Summary: Photo 1

Wind generator set up at our residence in Charleston View in the early 1990's but eventually abandoned due to noise.

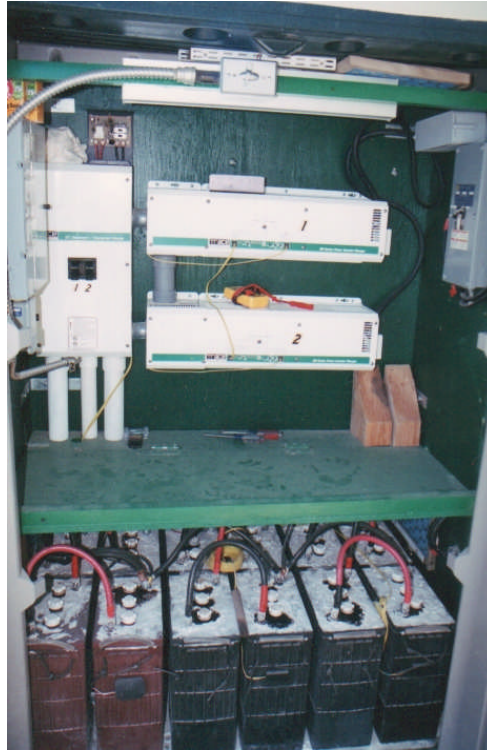

Executive Summary: Photo 2

A small boat my dad equipped with a wind generator, photovoltaic panels and batteries on the side. It's "seaworthiness" is highly questionable.

Executive Summary: Photo 3

Battery banks and inverters for a small solar photovoltaic system, also now abandoned.

Executive Summary: Photo 4

Solar Solutions, a short lived attempt at initiating a solar photovoltaic design company by my father, was advertised on our truck.
